These medications contain a complete regimen all in one:

**Integrase Inhibitors**

- **Cabotegravir**
  - Long-acting regimen
  - Administered subcutaneously once every 8 weeks
  - Used only in men and women on HIV therapy for the first time and who have no history of treatment failure or resistance mutations associated with cabotegravir or rilpivirine

- **Rilpivirine/Emtricitabine/Tenofovir Alafenamide (RPV/FTC/TAF)**
  - Long-acting regimen
  - Administered subcutaneously once every 4 weeks
  - Used in treatment-experienced people with prezostatin-related resistance; or one 600 mg tablet plus 100 mg Norvir, twice daily for darunavir-related drug resistance. Take with food.

**Protease Inhibitors**

- **Darunavir/Cobicistat/Emtricitabine/Tenofovir Alafenamide (DRV/COBI/FTC/TAF)**
  - Used in treatment-experienced people with prezostatin-related resistance; or one 600 mg tablet plus 100 mg Norvir, twice daily for darunavir-related drug resistance. Take with food.

- **Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Alafenamide (ETR/COBI/FTC/TAF)**
  - Used in treatment-experienced people with prezostatin-related resistance; or one 600 mg tablet plus 100 mg Norvir, twice daily for darunavir-related drug resistance. Take with food.

**Entry Inhibitor: CCR5 Antagonist**

- **Pifeltro**
  - One 200 mg capsule, once daily. Take with or without food.

**Nucleoside Reverse Transcriptase Inhibitors**

- **Tenofovir Disoproxil Fumarate/Lamivudine (TDF/3TC)**
  - One tablet (300 mg lamivudine/300 mg tenofovir DF), once daily, lamivudine/tenofovir DF
  - One 200 mg tablet, twice daily. Take with or without food.

- **Tenofovir Disoproxil Fumarate/Emtricitabine (TDF/ETR)**
  - One tablet (25 mg rilpivirine/200 mg emtricitabine/300 mg tenofovir DF), once daily. Take on an empty stomach, preferably at bedtime.

- **Tenofovir Disoproxil Fumarate/Emtricitabine/Abacavir (TDF/ETR/ABC)**
  - One tablet (600 mg efavirenz/200 mg emtricitabine/300 mg tenofovir DF), once daily. Should be taken on an empty stomach, preferably at bedtime.

**Non-Nucleoside Reverse Transcriptase Inhibitors**

- **Efavirenz/Tenofovir/Emtricitabine (EFV/FTC/3TC)**
  - One tablet (600 mg efavirenz/200 mg emtricitabine/300 mg tenofovir DF), once daily. Should be taken on an empty stomach, preferably at bedtime.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors**

- **Combivir**
  - Two 300 mg tablets, once daily; or one 300 mg tablet, twice daily.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors and Protease Inhibitors**

- **Prezista**
  - One 50 mg tablet, once daily for people on HIV therapy for the first time and who have no history of treatment failure or resistance mutations associated with efavirenz or nevirapine.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors and Integrase Inhibitors**

- **Rashini**
  - One 200 mg tablet, twice daily. Take with or without food.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors and Entry Inhibitor**

- **Genvoya**
  - One 200 mg tablet, twice daily. Take with or without food.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors and Long-Acting Regimen**

- **Symfia**
  - One 400 mg film-coated tablet, twice daily.

**Combination Non-Nucleoside Reverse Transcriptase Inhibitors and Short-term Regimen**

- **Integrase 90**
  - One 270 mg capsule, once daily. Should be taken on an empty stomach, preferably at bedtime.

**Combination Nucleoside Reverse Transcriptase Inhibitors**

- **Combivir**
  - Two 300 mg tablets, once daily; or one 300 mg tablet, twice daily.

**Combination Nucleoside Reverse Transcriptase Inhibitors and Protease Inhibitors**

- **Prezista**
  - One 50 mg tablet, once daily for people on HIV therapy for the first time and who have no history of treatment failure or resistance mutations associated with efavirenz or nevirapine.

**Combination Nucleoside Reverse Transcriptase Inhibitors and Integrase Inhibitors**

- **Rashini**
  - One 200 mg tablet, twice daily. Take with or without food.

**Combination Nucleoside Reverse Transcriptase Inhibitors and Entry Inhibitor**

- **Genvoya**
  - One 200 mg tablet, twice daily. Take with or without food.

**Combination Nucleoside Reverse Transcriptase Inhibitors and Long-Acting Regimen**

- **Symfia**
  - One 400 mg film-coated tablet, twice daily.

**Combination Nucleoside Reverse Transcriptase Inhibitors and Short-term Regimen**

- **Integrase 90**
  - One 270 mg capsule, once daily. Should be taken on an empty stomach, preferably at bedtime.
